DISCUSSION QUESTIONS

1. What does **immutability** mean? Why is this important?
2. The opposite of immutable is **variable**. In what way do we, as humans, display this trait? *[we waver in many good and bad ways—from immature and mature, in weakness and strength]*
3. Why do we have a problem understanding God's immutability *[we tend to anthropomorphize, and believe that or act like God can change His mind]*
4. Because God is consistent, this should lead us to worship as well as offer comfort and confidence. How do you see these things in your life?
5. Just because God is immutable doesn't mean He is inactive. He's at work changing us. How do you see this in your life?
